

Asbestos Testing PLM / PCM Laboratory

Our Services Include:

- ✓ Asbestos in Bulk Building Material using Polarized Light Microscopy (PLM) per EPA Regulations
- ✓ Asbestos and other fibers in air using Phase Contrast Microscopy (PCM) by NIOSH Method 7400

The Laboratory Maintains Proficiency with:

National Voluntary Laboratory Accreditation Program (NVLAP) for bulk asbestos fiber analysis using Polarized Light Microscopy (PLM)

American Industrial Hygiene Association (AIHA) Industrial Hygiene Proficiency Analytical Testing (PAT) Program for the analysis of Asbestos and other fibers in air using Phase Contrast Microscopy (PCM).

Accreditations:

- ✓ National Voluntary Laboratory Accreditation Program (NVLAP) Lab Code 200534-0
- ✓ Scope of Accreditation to ISO/IEC 17025:2005
- ✓ Bulk Asbestos Fiber Analysis (PLM)
- ✓ Designation – Method EPA/600/R-93/116
